ADA MEADE, KENTUCKY'S MOST GIFTED DAUGHTER.

"Kentucky Night" will be observed at the Lyric Theatre, Cincinnati, on Tuesday, January 9, when a large party of friends of Miss Ada Meade, leading lady of the sparkling musical comedy, "Katinka," will journey from Lexington to witness the performance and to honor to their charming fellow townswoman.

Miss Meade is a member of the famous Meade family, for generations of the aristocracy of the Blue Grass section, and her success on the stage is a source of much gratification to her friends and distinct triumph for Kentucky talent.

"Katinka," the play in which Miss Meade is appearing this season, is one of the most tuneful of the five Hammerstein musical plays ever given to the theatre-loving people. In presenting this beautiful Hauserbach-Friml comedy, Arthur Hammerstein, well known producer, has taken pains to make it one of the most excellent offerings ever sent on the road. A superb cast, a finely balanced pleasing-to-look-on chorus and enlarged orchestra of superb symphonic soloists and stage settings and environments teeming with Oriental splendor are the four big assets claimed by Mr. Hammerstein for his production.

"Katinka" is generally recognized as the greatest musical triumph of Rudolph Friml since that young wizard of melodies in conjunction with Otto Hauerbach, set the pulse of theatre-goers tingling with their dazzling "Firefly" and the ever-sparkling and splendidly bewitching "High Jinks."

T. Roy Barnes heads the cast with Audrey Maple as prima-donna, and Ada Meade, chief associate fun purveyor; others in the company are David Reese; A. Robin; Renee Noel; Walter Manthey and a Russian dancer, May Jenesse, besides a chorus of fifty voices of the first distinction. (adv)

KENTUCKY SOCIETY TO GIVE DINNER THURSDAY

The annual banquet and reception of the Kentucky Society of New York will be given Thursday evening, January 11, at the Plaza Hotel. The guest of honor will be Champ Clark, Speaker of the House of Representatives, who is a native of Anderson county, Kentucky. Plans are being made to accommodate close to 300 members and their guests at the annual society function, and from present prospects the number of those who will be in attendance will fully approximate this estimate. The Kentucky dinner is always one of the most widely patronized affairs of any of the State functions each season in Gotham. The committee having the arrangements for this year's dinner in hand expects all previous records to be surpassed in view of the fact that an unusually large number of Kentuckians are now visiting in the metropolis, and these will be invited as special guests. Besides Speaker Clark, Irvin Cobb and other prominent ex-Kentuckians will make short speeches, and a good portion of the evening will be given over to dancing in the main ballroom at the Plaza.

ASLEEP FOR 27 MONTHS.

The curious case of a French singer, aged 31 years, who has been in a state of lethargy for 27 months, has been described to the Medical and Surgical Society by Professor Verger. The patient was among the troops mobilized for the battle of Marne. He disappeared, but was found shortly afterward in Brittany, since which time he has been sleeping, eyelids closed, respiration regular, but pulse rapid. He is sensitive to excitement, says the description of the case given by Professor Verger, such stimulation provoking a weak defense without, however, interrupting his sleep, and it is possible to administer liquid food.

DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH.

Look At Tongue! If Coated, Clean Little Stomach, Liver, Bowels.

Don't scold your fretful, peevish child. Se if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again.

Keep it handy, mother! A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup. (adv)

1,500,000 RED CROSS STAMPS SOLD DURING HOLIDAY SEASON

FIT THE COW TO THE FARM.

Before any farmer decides on the breed of cattle he will keep he should decide on what he wishes to keep them for. The farmer living several miles from a market and with a large farm will usually find beef cattle more to his needs than dairy cattle. The man who wishes to keep only two or three cows to supply milk and butter for his family, and who expects to get his cash returns from the sale of calves, will generally find one of the dual-purpose breeds the best for him. The man whose business is dairying cannot afford to think of beef returns except as one of the little incidents of his business.

Many a dairyman has ruined his business by the use of a beef bull, hoping to get calves that would sell for more without reducing his supply of milk. There are numerous neighborhoods in which the calves rather than the milk should be the main return from the cows but in which Jersey bulls are making the calf crop poorer every year. Numbers of farmers are trying to get both milk and beef by crossing cattle of the beef type with cattle of the dairy breeds.

All these things means loss to the farmer. The dairyman who breeds his cows to anything but a pure-bred bull of one of the dairy breeds needs a term at school. The man who takes a dairy bull into a beef cattle neighborhood should have rocks and eggs and things thrown at him. The problem of the all-around farm cow is still a hard one to solve. The best solution, theoretically, is the keeping of real dual-purpose cattle, such as the Red Polls or a milking strain of Shorthorns. Often, though it is not practical to get cows of this kind, and then the farmer must do just the best he

In Durham, N.C.

It was midnight, cold and dark. The calendar told the date—Monday, November 4th, 1901. They tell me I opened my eyes and blinked in the glare of the big electric lights. Around me were men in spotless white talking in low tones.

"Jim," one said, "we have been watching for this little fellow for a long while and now he's here."

Jim picked me up, looked me over, struck a match and took a long, deep puff. Then he took another.

SEVEN YEARS OF SUFFERING ENDS

Tanlac Helps Man In Fight Against Health Worries.

After suffering seven years with his stomach, Clarence Flanagan, Clark and Central avenue, Cincinnati, has at last found the relief he was looking for. He found it in Tanlac.

With a "Tanlac Smile" he told his story to the Tanlac Man—

"For seven years I suffered with my stomach. My trouble began with a coated tongue, a bloated feeling after eating and now and then a little touch of heartburn.

"As time went on I felt worse. My appetite left me and then came headaches. I could not do as much work as I used to without getting tired. I was losing my strength.

"I took a simple medicine. I got a little relief, but soon I was worse than ever. Then I got scared.

"Often after meals I would double up with cramps. Cold sweats broke out.

"For days I fasted in hope of getting better. My bowels clogged up and needed constant dosing.

"My whole system was run down. I was cross, nervous and blue. My complexion became pasty.

"Then I started to take Tanlac. Now look," and Mr. Flanagan again called attention to his healthy, ruddy complexion.

"I have gained in weight, too," he continued. "This ought to tell you what I think of Tanlac and how sincerely and truthfully I recommend it to the people of Cincinnati.

"My health worries are all gone and I now feel better than I have felt for years."

Ask any of the great army of Postum users what influenced them to try this beverage, and the reply nine times out of ten will be that they were convinced the caffeine and tannin in coffee and tea were harmful to health.

Some imagine it is hard to give up coffee and tea. But it isn't, with the delightful aroma and flavor of Postum at hand. This flavor somewhat resembles that of a high grade Java coffee, but there is no coffee in Postum—only the nourishing goodness of wheat, skilfully processed with a small per cent of wholesome molasses.

Postum comes in two forms; Postum Cereal, which has to be boiled; Instant Postum—soluble—made in the cup, instantly. Some prefer one, some the other. Made right, they are alike delicious, and the cost per cup is about the same. There's better health, comfort and efficiency in

THE CHRISTMAS CLUBS.

It has been reported that the banks of the country that operate Christmas Club accounts have distributed to their patrons as aggregate of \$80,000.

One marvels at the figures!

They show that the development of the Christmas Club is something which promises well for the independence and thrift of future generations, and Paris owes a great measure of thanks to the banks for conducting this fund.

So far as returns to the banks are concerned there is very little to make the Christmas Club profitable—the cost of bookkeeping and the incidentals in connection with these small accounts, together with the interest allowed, wipes out what noticeable profit might come from the plan—but, that the people of Paris benefit by the the regular payments at the banks in the regular payments at the banks in involve, must be conceded without question.

Education is aimed to teach our children how to take care of themselves when they grow up.

Universal education in this country has done much to equip our people to earn better remuneration than in the past.

Nevertheless up to now our system of education has not universally taught the urgency of thrift, the putting aside of a fixed sum regularly from the day that a young man or young woman begins to earn money, in order that in old age they may be independent and free from the need of support from the State or from others.

Once a young person discovers the value of maintaining a regular savings fund he has opened the door to future independence. The Christmas Club has opened that door to hundreds in this community, and they are going forward eagerly, to become valuable self-reliant citizens.

ECLIPSE OF THE MOON
HARDLY VISIBLE HERE

A cloudy sky rendered the eclipse of the moon hardly visible here yesterday morning, according to a few rounders who stayed up until the small hours watching for it.

The eclipse was total and visible all over the United States, or at least so advertised. The eclipse was the first of seven scheduled for a celestial program during 1917. The phenomenon began at 12:50 yesterday morning at an hour when all the just and righteous citizens of Paris were deep in slumberland, consequently they missed all the acts. At 2 o'clock the moon was completely enveloped within the shadows of the earth. The eclipse continued for one hour and twenty-five minutes, the moon being entirely free from the shadow at 4:39 a.m.

This was the first total eclipse of the moon since 1913, and the first that has been visible, completely, since 1910. This year's eclipse of the sun and moon will be the greatest number possible in any one year. There will be four eclipses of the sun and three of the moon. Not since 1787 has the same number occurred and a like number will not be seen until 1982.

PARIS TEAM DEFEATS LEXINGTON BASKET BALL TEAM.

The local Y. M. C. A. team "came back" Saturday night by winning a decisive victory over the Lexington First Baptist Church team by a score of 47 to 15. The Lexington aggregation is one of the best of its kind in the city, and came ranking little lower than the State University team, which barely won from the "Y" earlier in the season. The comparative scores in the two games are accounted for more as a marked improvement on the part of the Paris squad, than so great a difference in caliber of its respective opponents.

The first half of the game was a neck-and-neck race, with Paris seven points in the lead when the whistle blew. In the second the home boys seemed to grow surer of themselves and showed flashes of real basket ball. It was in this half that a change in the Y. M. C. A. line-up was made, which seemed to freshen the attack and to score began to pile up.

With a little hard work the local director hopes to see the squad round into shape in time to win from Georgetown College, which team plays here either next Saturday or Monday of the following week. (Will be announced later.) They defeated Paris before Christmas; but conditions in the local squad have changed materially, since and nothing less than a victory will be welcomed.

Good crowds have been attending these games and a much larger one is expected when Georgetown comes.

PARIS BOWLING LEAGUE.

The huskies composing the Fordham Alleys bowling team defeated their opponents, the R. P. Walsh team, in the game at the Fordham Alleys, Thursday night, bringing the bacon home to their side by a majority of only twenty-four, which was, however, safe enough to enable them to get by with the winning game. For the winners, Thomas rolled the leading score making 174 in the third game, Jones following for second honors with a score of 169. For the Walsh team Douglass made the high score of 176, followed by Duncan with 166 for second place. The games were witnessed by a large crowd of spectators, and interest in the contests seems to be on the increase.

LAST RELIC OF OLD
FAIR TO BE RAZED.

Some time ago complaint was made to the State Fire Marshal's office at Frankfort in regard to the old Floral Hall building on the Bourbon County Fair Grounds, near Paris. The building had become dilapidated to such an extent that it was a menace to surrounding property. Chief Deputy State Fire Marshal Ed. Hite came to Paris last week, and after a thorough inspection of the property, ordered it torn down, which will be done this week.

With the razing of this house the last relic of the old Bourbon County Fair, the oldest agricultural society in the State, and by far one of the best in its prime, disappears, and only the memory of the happy days spent there is left. The building in the days of the old fair, was the gathering place for all the fair daughters of this and surrounding counties. It was regarded as an art center, and was also the scene of many a happy gathering in later years when the belles and beaux of the county gathered to spend the hours in dance.

IT PAYS TO ADVERTISE.

It is unfortunate to lose any article of value, and it is only natural that the loss will cause you worry. A great deal of your worry can be done away with, though, if you will place a small advertisement in THE NEWS. Our advertisements have become famous for their value in finding lost articles. It pays to advertise.

JEMIMA JOHNSON CHAPTER D. A.
ENTERTAINED IN MILLERSBURG

Mrs. Louis Rogers and Mrs. Sanford Allen, of Millersburg, were hostesses Saturday afternoon at the home of Mrs. Allen, in Millersburg, to the members of Jemima Johnson Chapter, D. A. R., of this city, at the January meeting of that organization, which was transferred to Millersburg at the request of Mrs. Allen and Mrs. Rogers.

The Allen home was beautifully decorated for occasion with American flags, plants and carnations. Nearly all the members of the Chapter accepted the invitation and were present, making the trip in automobiles. Mrs. William G. Talbott, Regent of the Chapter, presided over the meeting. A very interesting article, "A Tribute to America," written in 1813 by Frances Allen, a son of John Allen, founder of the Allen family in this State, was read by Miss Elizabeth Grimes. The chair which was occupied by Mrs. Talbott at this meeting was a relic of the days of John Allen, and has been the property of Mrs. Sanford Allen for several years.

Mrs. C. M. Best, of Millersburg and Mrs. Owen L. Davis, of Paris, with Mrs. M. H. Dailey as accompanist, rendered several beautiful vocal selections. A piano duet by Misses Margaret Allen and Catherine McIntyre, violin selections by Misses Mary Louise Bruce and Georgia McDaniel, with Miss Mattie Butler at the piano, made up a pleasing musical program. At the close of the program a salad course was served, including chicken salad, cottage cheese balls with pineapples, beaten biscuits, hot rolls, scalloped oysters, coffee, stuffed dates, orange sticks and home-made candies.

WOMEN'S NERVES

Women, more than men, have excitable nerves, because tiring work and physical strain tax their more delicate nervous systems and bring premature age and chronic weakness—unless treated intelligently.

Drug-laden pills and alcoholic concoctions cannot build up a woman's strength, but the concentrated medicinal food properties in

SCOTT'S EMULSION

build strength from its very source and are helping thousands of women to gain control of their nerve power—overcome tiredness, nervousness, impatience and irritability.

NEARLY TWO MILLION MEN SERVE BRITAIN IN FRANCE

PARIS, FRANCE, Jan. 8.—A special Havas dispatch from the British front in France says:

"General Sir Douglas Haig to-day commands the largest army Great Britain ever levied on her soil. The number of effectives in the British army in France on January 1 was nearly 2,000,000 men, completely trained and ready day or night to receive orders from their Commander in Chief.

"This figure only refers to the British forces in France and is exclusive of those employed in the defense of Great Britain, Ireland, India, Saloniki, Egypt, Mesopotamia and Africa."

STARVING WOMEN STEAL FOOD.

GENEVA, Jan. 8.—The Burgomaster of Vienna, Dr. Weiskirchner, threatens to resign if Hungary continues to refuse to send food to Vienna, according to reports received here.

He is reported as saying that the prisons are filled, chiefly with women and children convicted of having stolen food, while housewives are afraid to go shopping for food, even in the principal streets, owing to robberies and assaults.

The Swiss and German papers are crowded with advertisements for Swiss servants to go to Germany, the reason being that every Swiss in Germany is allowed to receive from home weekly 10 pounds of foodstuffs.

Use Doan's Kidney Pills—the tested kidney remedy.

Paris people endorse their worth.

Mrs. John Martin, 1,439 High street, Paris, says: "I have used Doan's Kidney Pills with very good results and I can tell from the help they were to me that they will be beneficial in other cases of kidney trouble. I had a dead, dull ache across the small of my back and my kidneys were irregular in action. Doan's Kidney Pills rid me of these complaints and I have faith enough in them so that if I should need a kidney remedy, I would certainly take Doan's."

THE MEXICAN SITUATION.

WASHINGTON, Jan. 8.—Interest in the Mexican situation remained centered to-night on what action President Wilson might follow his approval of the recommendation of the American members that conferences of the Mexican-American joint commission be brought to an end.

Dr. J. R. Mott, one of the American Commissioners, carried to the Mexican members in New York, Thursday, a formal reply to the last communication from General Carranza, in which he again had refused to ratify the protocol providing for the withdrawal of American troops from Mexico.

If Luis Cabrera, Chairman of the Mexican group, and his colleagues, Ignacio Bonillas and Alberto J. Pani, desire it, a last meeting will be held, probably in Washington, merely for the expression of the formalities incident to dissolution of the commission.

There has been no announcement of the President's decision as to the American Commissioners' suggestion that he act on his own initiative in the matter of withdrawing the troops, and that diplomatic channels be provided for dealing with questions at issue between the two Governments. It appears certain, however, that Henry P. by British troops."

Gilbert, Superintendent of Public Instruction, has sent letters to all of the County School Superintendents urging them to attend the conference of School Superintendents which meets in Frankfort on January 15 to 20. One of the matters to come up before the education forces of the State is the need of constructive leadership.

SHEEP KILLING CURS RAID BOURBON FLOCKS

Thirty-eight head of fine sheep, the property of Messrs. Larke and Wood Monson, residing on their farm in the Colville vicinity, near the Bourbon and Harrison county line, were victims a few nights ago of a raid by sheep killing curs. The animals killed were valued at about \$700. A number of other sheep were also wounded.

The flock of Mr. Clifton Gillispie, near Little Rock, was also visited very recently by dogs, resulting in the loss of seventeen killed and forty wounded. The animals were valued at about \$15 per head.

These losses will fall heavily on the owners, as the State will only reimburse them to the extent of about thirty per cent in the sheep claims for 1916.

BAD COLD QUICKLY BROKEN UP.

Mrs. Martha Wilcox, Gowanda, N. Y., writes: "I first used Chamberlain's Cough remedy about eight years ago. At that time I had a hard cold and coughed most of the time. It proved to be just what I needed. It broke up the cold in a few days, and the cough entirely disappeared. I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms." Obtainable everywhere.

DEATHS.

—Mr. J. P. Auxier has returned from a business trip to Henry county.

—Mr. and Mrs. Mingus, of New York, are guests of their daughter, Mrs. A. J. Thaxton.

—Rev. A. S. Venable has been conducting a house-to-house prayer meeting during the past week.

—Mr. and Mrs. J. P. Burroughs and little son, William Virgil, were guests of Mr. and Mrs. Albert Potts, at Paris, Sunday.

—Mr. and Mrs. A. S. Miller entertained a number of their young friends with rook Thursday evening. Mrs. A. S. Miller entertained a number of her lady friends Friday afternoon.

—The officers of the Christian church in session Thursday evening extended a call to their present pastor, Elder C. O. Cossaboom, for the year 1917, which was accepted by him. Elder Cossaboom has been pastor of the church for several years, and some time ago tendered his resignation, which the officers in their last meeting refused to accept. This speaks the high esteem in which this clergyman is held by his congregation.

—Cards are out announcing the marriage of Mr. C. B. Bastin to Miss Adelaide Clingman, both of Detroit, Mich. The wedding will take place on the evening of January 18. Mr. Bastin is well known here, and for several months was local manager for the Bourbon Home Telephone Co. It was during his stay here that he was united in marriage to Miss Curly Ink. After leaving here he went to Detroit, and in the autumn of 1915 Mrs. Bastin died. Her remains were interred in the Millersburg cemetery. Her funeral services were conducted by her pastor, Elder Clingman, of Detroit. It is his daughter that is now to be the second bride of Mr. Bastin. Mr. Bastin is a devout Christian and is entering the ministerial work in the Christian church. He is also a good Mason, and at one time was a member of Amity Lodge No. 40. Their many friends about Millersburg extend congratulations.

CELEBRATES TWENTY-SECOND ANNIVERSARY OF PASTORATE

Dr. L. J. Spencer, pastor of the Central Christian church, in Lexington, and father of Mrs. William E. Ardery, of near Paris, on Sunday celebrated the twenty-second anniversary of his pastorate with that church. The event was marked by the delivery of two special sermons, one in the morning on "The Four Big C's," and one in the evening on "A Look Forward into the Book of Hebrews." More than half of Dr. Spencer's life has been spent as a minister of the Gospel, and the Central Christian church has more than doubled its membership and has more than trebled its Sunday school under his ministry. He has held more than nine hundred evangelistic meetings outside of his pastorate, in as many as a score of States, and has received thousands of persons into the church

STRATTON.

The funeral of Hiram Stratton, aged eighty-two, who died at his home near Broadwell, Harrison county, Saturday, of cirrhosis of the liver, was held at the family residence Sunday morning at eleven o'clock, with services conducted by Rev. J. R. Jones, of Cynthia, assited by Eld. J. T. Sharrard, of Paris. The burial followed in the Jacksonville Cemetery. The pall-bearers were B. F. Spears, David Anderson, E. Oder, Earl Anderson and Jno. W. Craig.

Mr. Stratton was a bachelor, and had lived all his life in the home where he was born and where he died. He is survived by one brother, George Stratton.

THOMAS.

The funeral of Mrs. Clifton Thomas, aged sixty-six, who died at her home in North Middletown, after a long illness of Bright's disease, was held at the family residence in North Middletown, Saturday morning at 9:30 o'clock with a short service, after which the body was taken to the Log Lick Cemetery in Clark county, where services were conducted at the grave.

Mrs. Thomas is survived by her husband, Mr. Clifton Thomas, and two step-sons, Mr. Walter Thomas and Mr. Clay Thomas, of North Middletown, one sister, Mrs. Pleas Hill, of Winchester, and two step-daughters, Mrs. William Collins, of Maysville, and Mrs. Lucy Dayton, of Mt. Olivet. Mrs. Thomas was an aunt of Mrs. J. W. King, wife of Patrolman J. W. King of Paris.

FRANCE.

Mr. Jas. W. France, a well-known and prominent citizen of Flemingsburg, died at his home in that city at seven o'clock Sunday morning, after a short illness. Mr. France had been ill but a short time, and while it was known that his condition was such as to warrant apprehension, it was not thought the end was so near.

Mr. France was the father of Mrs. W. O. Sadler, wife of Rev. W. O. Sadler, pastor of the Paris Methodist church. Rev. and Mrs. Sadler were called to his bedside last Thursday, when it was thought that the condition of the patient was alarming. Rev. Sadler having cancelled an engagement to take part in the public installation of officers of the Knights of Pythias at the Baptist church. The funeral will take place in Flemingsburg to-day.

TAYLOR.

Dispatches to the daily papers Saturday told of the death in California of Mr. Gibson Taylor, a former resident of Winchester, where he was a prominent attorney, and for many years identified actively with the business life of the community in which he lived so long.

Mr. Taylor, who was fifty-four years old at the time of his death, was well known in Paris, having married Miss Sarah Hanson, daughter of Mrs. Chas.

Hanson, formerly of Paris, and a sister of Mrs. William R. Thomas, who was Miss Carrie Hanson, of Paris. Mr. Taylor had been in poor health and some years ago moved to Arizona, where he resided some time, later on moving to Los Angeles, California. He died at Hollywood, a suburb of Los Angeles, where he had been for several months following a stroke of paralysis. His home was in Tucson, Arizona, where he had been employed in the legal department of the Southern Pacific Railway Company. He was a native of Lagrange, and has two sisters, Mrs. J. C. Clore and Miss Alice Taylor, residing there. These sisters, with his wife, survive him. Mrs. Clore and Miss Taylor had just returned from a visit to Mr. Taylor. The body will be brought back to his old home, Winchester, for interment in the Winchester Cemetery.

SAUER.

Mr. Fred Sauer, aged about fifty-five, a former resident of Paris, died at his home in Lexington, yesterday at six o'clock, of cancer of the stomach. Mr. Sauer had been ill for about a year. Previous to that he had been in the Lexington hospitals at intervals under treatment for relief from the malady that finally caused his death.

Mr. Sauer was in the grocery business in Paris for several years, moving to Lexington, where he engaged in business. He is survived by two children, Keller, aged twenty-five, and John Wesley, aged twenty-three; and the following brothers and sisters: William Sauer, John Sauer, Mrs. Jas. Doty and Mrs. Ida Batterson, of Paris; Mrs. Wm. Mayfield, Dayton, O.; Mrs. Ashbrook, Elgin, Ills.; Mrs. Thomas Rice, Maysville.

The funeral arrangements have not been announced, but the burial will take place in Lexington.

RELIGIOUS.

Owing to the absence of Rev. W. O. Sadler, who was in Flemingsburg, where he was called by the death of his father-in-law, Mr. J. W. France, the pulpit at the Methodist church was filled Sunday morning by Rev. W. A. Swift, of Lexington, editor of the Central Methodist, and at night by Rev. J. D. Moss, of Georgetown.

BIRTHS.

Capt. John W. Throckmorton, of Lexington, one of the best known former conductors on the Louisville & Nashville, is the proud grandfather of a fine boy born to Mr. and Mrs. Roger Harp, in Lexington. The new arrival, the second child of the household, has been named Roger Harp, Jr.

MATRIMONIAL.

Rumors are afloat of several weddings in the near future, one, a young farmer residing not many miles in the country and a charming young miss of the younger set in Paris. The report is that it may occur about the 15th of this month.

TALBOTT—SLEED.

The wedding of Miss Marie Talbott, daughter of Mr. and Mrs. William G. Talbott, of near Paris, and Mr. Frank W. Sleed, Assistant Cashier of the North Middletown Deposit Bank, will take place at St. Peter's Episcopal church in this city on next Monday, January 15. Rev. George H. Harris, rector of the church, will be the officiating clergyman.

FARMERS' INSTITUTE TO BE HELD IN WINCHESTER.

The States Farmers' Institute will be held at Winchester, February 28 and March 1 and 2, Commissioner of Agriculture Mat S. Cohen has announced that the State Board of Agriculture had decided upon the time and place.

On alternate years the institute is held at Frankfort. With the assumption of all agricultural extension work by a committee of University of Kentucky trustees, the county farmers' institutes have been abandoned, and the State institutes is the only gathering of the kind.

The plan of work now fostered by the Governor through co-operative funds is by demonstration rather than lectures and conferences, the latter being limited to local farmers' clubs for discussion of community problems and co-operative enterprises.

SWAT 'EM NOW.

This is the time for the housewife to fetch out the fly swatter and get to work on those old, dreamy flies which are the bane of the well-heated house in winter. There is no reason for letting these half-hibernating insects remain with us all winter, laying eggs and living on the fat of the land. They are to be found around electric fixtures, roosting upon picture rails; and in all the other numerous crevices about the house.

THE NEWS is not sufficiently versed in insectology or the higher mathematics to be able to give the exact figures; but the slaughter of the winter flies in all houses would give the community a good start next spring when those which have wintered out of doors, or in warehouses and like places bring forth their offspring to contaminate the entire community. The number, at all events, will be sufficiently large to make interesting the winter extermination.

AMERICAN NEWSPAPERS FACE A CRISIS.

The shortage in news print paper is subjecting the newspapers of the whole earth to a famine that will be disastrous to many of them. It is not alone in the United States that newspapers by the hundreds have been compelled to suspend because of their inability to secure a supply of white paper at prices that would permit them to continue publication. In every country newspaper publishers are facing the same advance in supplies—in every country they behold an ascending scale of prices not only for paper, but for other materials.

Thus we notice that in London, according to the Associated Press, owing to the cost of production a number of leading newspapers are being conducted at heavy losses. The Great Thunderer has increased its selling price and other important daily newspapers have followed suit. As in London, so everywhere throughout the British possessions, but the newspapers of the United States long have been struggling with conditions even more difficult than those their foreign contemporaries face.

We note that the New York Globe has informed advertisers: "On account of the limited supply of white paper—the demand in the United States seriously exceeding the supply—the Globe will be forced, at least temporarily, to limit the amount of advertising which it can print." In facilitation of that policy the Globe has laid down a series of rather stringent rules. The New York city papers generally have made a considerable reduction in the amount of white paper used. Taken collectively, they are printing about 100 less pages of reading matter than they were a year ago.

In the central section of the country, under the leadership of the more prominent papers, prices have been very generally advanced. Canada, that supplied a considerable part of the print paper used in America, can give no relief. The Kansas City Star concludes its "Scores of newspapers are likely to be put out of business. The others must find drastic means for increasing their revenue or they must cut down their service. In either case the public, of course, must finally foot the bill."

GREAT POSSIBILITIES IN SILENCE.

At a tuberculosis sanitarium in Maryland a cure has been effected with only unbroken silence as medicine. A prominent Baltimore manufacturer kept silent for a year to give the tissues of his vocal organs a chance to strengthen and thus resist the spread of the tuberculosis infection. He is now in good health. The treatment is such as we should like to see prescribed by physicians in a much wider therapy. It might, we should think, be prescribed for colds, as being possibly symptomatic of grave complications. Scilencing the great army of people with colds, who insist on telling how they got them, and how they are trying to get rid of them, would be something, in fact much.

But we look beyond any limitation of bronchial or pulmonary disorders. Now that we have heard of the curative power of silence, something in the efficacy of which we have always believed, no pent-up Utica shall contract our powers, but the whole boundless continent of disease is ours.

The man who regales his friends with details of his pains and aches; the one who likes to mourn in company with another likewise afflicted; he whose fearful soul imagines fatal ills at any visitation of pain through which kind

nature may be setting aright some irregularity in his system; all and singular the multitudes who die every day the death of fear, and who afflict their friends with their dolorous cries—these and countless others, should get the prescription of silence, and have trained nurses set over them to see that they take their medicine.

There is hope in the Maryland experiment from more than one point of view. If silence is curative, let it be used on those who are really afflicted.

If its compulsory use can be made to disband one great army of hypochondriacs, so much the better.—St. Louis Globe Democrat.

Divide the family responsibilities with the older children, but do not expect them to use your head in carrying them. These should make a sort of training school for the big ones that they will have to handle later.

OUR MORTALITY LIST.

Claims of the Prohibitionists Are Refuted by U. S. Official Statistics.

Under the above caption, the Saturday Evening Post of Philadelphia, editorial page, issue of October 21, 1916, gives some very interesting information which ought to be read by Mr. Hobson and other prohibition agitators who would have us believe that "alcohol" destroys two thousand lives each day!

We quote from the item mentioned: "The death rate in the United States last year was the lowest ever reported—thirteen and a half for each thousand inhabitants. Fifteen years ago it was seventeen and a half; so we may say that about four hundred thousand more people would have died in this country last year but for the better care we take of our health—mainly by public sanitation. This ratio, of course, is for the 'registration area,' which embraced only two-thirds of the population. Probably the remaining third fared in about the same way, though the fact that it is not enough interested in the matter to make a proper report of vital statistics rises a presumption against it."

Accepting the figures of the Saturday Evening Post, the year now approaching its end shows the best record of any as to the Nation's death rate.

The figures of the International Revenue Department in Washington for the same period show a steady increase in Internal Revenue receipts.

The books of every distiller, brewer, wine dealer and wholesale liquor dealer in the country show increased withdrawals from bond and increased sales to dealers and consumers for the same period of time.

Were our prohibition friends capable of learning anything, these facts and figures should be highly discouraging to their unsupported claims as to the accomplishments of prohibition.

On the one hand we have an enormously diminished death rate and on the other a largely increased sale and consumption of wine, beer and whisky.

The prohibition agitators will meet these facts and figures with their usual evasion and misrepresentation, but facts, and especially government figures, are stubborn things to deal with.

Sane people who are honest with themselves will draw the conclusion that the nation is going along under constantly improving conditions of sanitation and sobriety, and while using liquors more freely, it is using but not abusing.

In almost every city the colored death rate is substantially higher than the white. In a number of cities, including Northern as well as Southern towns, it is double that of the whites, and in a few places much more than double. For all registration cities in which the colored population formed ten per cent or more of the total death rate—in 1914—was twenty-six per thousand, against fifteen for whites.

As to the higher death rate among the colored population, to which the Saturday Evening Post draws attention, it is due now as it always has been, to the wretched habitations in which they live. This is especially true of the cities where they are unfortunately crowded into the districts not deemed desirable by whites.

That contains about the whole story of a falling death rate, for undoubtedly the colored population of cities lives under less sanitary conditions than the white.

Of the million and a third persons—roughly—who died in the United States last year, about one-quarter were under five years of age, and over two hundred thousand were under one year. It is there, probably, that at tacks upon the death rate can be most successfully made; for there is no doubt that an important part of the infant deaths is preventable.

Ignorance, not alcohol, is accountable for the large percentage of infant and juvenile mortality.

The falling death rate is a result of social action, a strictly co-operative product. This has been most vigorously applied in cities; so the death rate, the country over, is but slightly above that of the rural districts. In New York, in fact, the city death rate is lower than the rural.

And yet, it is in the cities that liquors, especially among the unsanitary, are the more freely used.

Every statement and all the figures of the Post's item tend to refute the prohibition asseveration that the increased use of liquor is the cause of increased mortality.

The year's record shows just the contrary—greatly increased use of liquor and enormously diminished mortality.—From "The Bulletin."

COURTESY OF THE EDITOR.

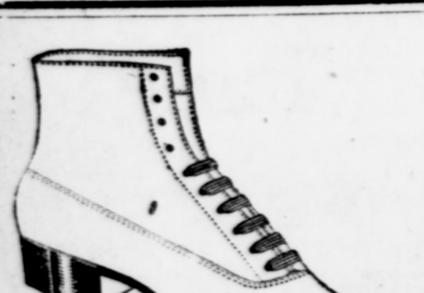

Authors not infrequently get mixed with editors who for one good reason or another decline to publish their manuscripts. Perhaps the men of the quill are not quite so courteous as the editor of a paper in Peking, China, who in declining a manuscript wrote: "Illustrious brother of the sun and moon! Look upon the slave who rolls at thy feet, who kisses the earth before thee, and demands of the charity permission to speak and live. We have read the manuscript with delight. By the bones of our ancestor we swear that never before have we encountered such a masterpiece. Should we print it, his Majesty, the Emperor, would order us to take it as a criterion and never again print anything which was not equal to it. As that would not be possible before 10,000 years, all tremblingly we return the manuscript and beg thee 10,000 pardons. See—my head is at thy feet and I am the slave of thy servant!"—Biblical Record.

In the newspaper office with a score of hurry calls, it is a bit hard to write such letters.—Asheville (N. C.) Times.
